Buttermere lane clearance, Wiltshire

Duration: One day (Saturday 16 December 2017)

Volunteer hours to date: 120

Brief:

To cut back the over growth. Just over half a mile of green road was cleared and attention was paid to clearing high, so equestrian users can use without ducking. After all, byways are for all users. In addition, we cut back hard on a couple of soft sections (soft being little more than a muddy puddle) so they have a chance to dry out.
