

## Info sheet 10

### Gatescarth Pass, Lake District

Duration: One week

Volunteer hours to date: 20 hours

Result: Re-opened the road quickly which may not have happened for over 12 months

#### Brief:

GLASS and the TRF jointly funded the clearance of a landslide on the pass after the devastating floods in late 2015. The pass was low on the list to be repaired, and as this is such an iconic lane it seemed only fit that we helped pay the bill to get the lane re-opened as soon as we could. We negotiated a weekend in May for the first permits to be issued (Gatescarth Pass is a permit only green road) which meant no open days were lost in 2016. GLASS has now negotiated to provide volunteers to check the permits on each open day.
