

Info sheet 8

Roman Road, Trecastle

Duration: April 2015, one day

Volunteer hours to date: 16

Brief:

Volunteers from GLASS and the TRF, split into three teams, working with representatives from BBNP, Carmarthenshire Council and the local farmer to erect 15 Waymarking posts. A hand auger was used to make the job easier when working in soil. With ground nesting birds in the area, short posts were used to stop raptors using normal height posts for spotting their prey! Our thanks to Llanerchindda Farm for organising the day. info@cambrianway.com
