COVID-19
JUNE/JULY 2020 UPDATE

Consider:

- **your personal situation** - are you or any of household family members in the 'at risk' group?
- **think** - about others. Many people will still want to maintain a considerable social distance.

Think:

- **Travel only with** household members in your vehicle, and no more than six people in your group.
- Keep groups small - a maximum of **three** vehicles (based on two people per vehicle).
- **avoid busy routes**, and be courteous.

Stay safe:

- maintain social distancing - **stay 1m apart** from those outside your household, but 2m is preferable.
- **keep clean** - use gloves/sanitizer/wash your hands, as appropriate when necessary.
- **stick to routes you know** in order to avoid unexpected problems, **or** get advice from our rep.

Check:

- with the local authority **if you have any concerns** or questions.
- that your vehicle is in a **good state of repair**.
- that your route is legal, but consider that some **residential areas may still be concerned**.

Remember:

- **plan your route around these restrictions**, not all facilities maybe open.
- there have been illegal obstructions on RoWs during lockdown - **report them** to the local authority and your area rep. Do not abate unless you're sure it is legal and safe to do so.
- **For Wales, please read seaprate guidance sheet.**

ACT RESPONSIBLY • SOCIALLY DISTANCE
CAMPING ALLOWED IN ENGLAND FROM 4th JULY
